### **Issues**

1. Are the disputed services subject to a contractual agreement between the parties to this dispute?
2. What is the applicable rule for determining reimbursement for the disputed services?
3. What is the recommended payment amount for the services in dispute?
4. Is the requestor entitled to reimbursement?

### **Findings**

1. Review of the submitted documentation finds no information to support that the disputed services are subject to a contractual agreement between the parties to this dispute.
2. This dispute relates to facility services performed in an outpatient hospital setting with reimbursement subject to the provisions of 28 Texas Administrative Code §134.403, which requires that the reimbursement calculation used for establishing the maximum allowable reimbursement (MAR) shall be the Medicare facility specific amount, including outlier payment amounts, determined by applying the most recently adopted and effective Medicare Outpatient Prospective Payment System (OPPS) reimbursement formula and factors as published annually in the Federal Register with the application of minimal modifications as set forth in the rule. Per §134.403(f)(1), the sum of the Medicare facility specific reimbursement amount and any applicable outlier payment amount shall be multiplied by 200 percent, unless a facility or surgical implant provider requests separate reimbursement of implantables. Review of the submitted documentation finds that separate reimbursement for implantables was not requested.
3. Under the Medicare Outpatient Prospective Payment System (OPPS), each billed service is assigned an Ambulatory Payment Classification (APC) based on the procedure code used, the supporting documentation and the other services that appear on the bill. A payment rate is established for each APC. Depending on the services provided, hospitals may be paid for more than one APC per encounter. Payment for ancillary and supportive items and services, including services that are billed without procedure codes, is packaged into payment for the primary service. A full list of APCs is published annually in the OPPS final rules which are publicly available through the Centers for Medicare and Medicaid Services (CMS) website. Reimbursement for the disputed services is calculated as follows:
  - Procedure code 36415 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$3.00. 125% of this amount is \$3.75. The recommended payment is \$3.75.
  - Procedure code 80053 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$14.87. 125% of this amount is \$18.59. The recommended payment is \$18.59.
  - Procedure code 85025 has a status indicator of A, which denotes services paid under a fee schedule or payment system other than OPPS. Per 28 Texas Administrative Code §134.403(h), for outpatient services for which Medicare reimburses using fee schedules other than OPPS, reimbursement is made using the applicable Division fee guideline in effect for that service on the date the service was provided. Facility payment for the technical component of this service is calculated according to the Medical Fee Guideline for

Professional Services, §134.203(e)(1). The fee listed for this code in the Medicare Clinical Fee Schedule is \$10.94. 125% of this amount is \$13.68. The recommended payment is \$13.68.

- Per Medicare policy, procedure code 67036 is unbundled. This procedure is a component service of procedure code 67227 performed on the same date. Payment for this service is included in the payment for the primary procedure. Separate payment is not recommended.
  - Per Medicare policy, procedure code 67025 is unbundled. This procedure is a component service of procedure code 67036 performed on the same date. Payment for this service is included in the payment for the primary procedure. Separate payment is not recommended.
  - Procedure code 67227 has a status indicator of T, which denotes a significant procedure subject to multiple procedure discounting. The highest paying status T APC is paid at 100%; all others are paid at 50%. This procedure is paid at 100%. This service is classified under APC 0237, which, per OPPS Addendum A, has a payment rate of \$1,613.81. This amount multiplied by 60% yields an unadjusted labor-related amount of \$968.29. This amount multiplied by the annual wage index for this facility of 0.951 yields an adjusted labor-related amount of \$920.84. The non-labor related portion is 40% of the APC rate or \$645.52. The sum of the labor and non-labor related amounts is \$1,566.36. Per 42 Code of Federal Regulations §419.43(d) and Medicare Claims Processing Manual, CMS Publication 100-04, Chapter 4, §10.7.1, if the total cost for a service exceeds 1.75 times the OPPS payment and also exceeds the annual fixed-dollar threshold of \$2,025, the outlier payment is 50% of the amount by which the cost exceeds 1.75 times the OPPS payment. Per the OPPS Facility-Specific Impacts file, CMS lists the cost-to-charge ratio for this provider as 0.309. This ratio multiplied by the billed charge of \$1,671.33 yields a cost of \$516.44. The total cost of all packaged items is allocated proportionately across all separately paid OPPS services based on the percentage of the total APC payment. The APC payment for this service of \$1,566.36 divided by the sum of all APC payments is 100.00%. The sum of all packaged costs is \$2,215.38. The allocated portion of packaged costs is \$2,215.38. This amount added to the service cost yields a total cost of \$2,731.82. The cost of this service exceeds the annual fixed-dollar threshold of \$2,025. The amount by which the cost exceeds 1.75 times the OPPS payment is \$0.00. The total APC payment for this service, including any applicable outlier payment or multiple procedure discount, is \$1,566.36. This amount multiplied by 200% yields a MAR of \$3,132.72.
  - Procedure code J0690 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into payment for other services, including outliers.
  - Procedure code J0702 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into payment for other services, including outliers.
  - Procedure code J2250 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into payment for other services, including outliers.
  - Procedure code J2270 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into payment for other services, including outliers.
  - Procedure code J2405 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into payment for other services, including outliers.
  - Procedure code J2710 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into payment for other services, including outliers.
  - Procedure code J3010 has a status indicator of N, which denotes packaged items and services with no separate APC payment; payment is packaged into payment for other services, including outliers.
4. The total allowable reimbursement for the services in dispute is \$3,168.74. This amount less the amount previously paid by the insurance carrier of \$5,520.19 leaves an amount due to the requestor of \$0.00. No additional reimbursement can be recommended.

### **Conclusion**

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

## **ORDER**

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 additional reimbursement for the services in dispute.
